HARTFORD, OHIO COUNTY, KENTUCKY, FRIDAY, JUNE 17, 1921.

NUMBER 51

PEACE RESOLUTION PASSES THE HOUSE

Forty-nine Democrats Join In The Land Slide For Peace.

Washington, June 13.—By a vote of exactly five to one, the House tonight passed the Porter resolution to terminate the state of war between the United States and the Central Powers.

As a substitute for the Knox resolution, already passed by the Senate, repealing the declaration of war, it was put thru, 345 to 61 as a Republican measure with the loss of only one Republican vote—Kelley, of Nebraska. Forty-nine Democrats joined in the landslide.

First throwing out, on a point of order, a motion by Representative Flood, Democrat, Virginia, to send the resolution back to committee with instructions to report a substitute requesting the President to negotiate with the enemy countries for a treaty of peace, the House voted down, 254 to 112, another recommitting proposal relating to disarmament.

There was no debate on the latter motion, which provided for an amendment to the pending measure, reserving the right under the treaty of Versailles "to enter into an agreement with Germany and her allies and the powers associated with the United States in the war for joint disarmament."

Democratic Minority Crumbles.

The effort of the Democratic leadership to hold the party in line against the resolution failed, and the minority crumbled on roll call. The crack of the gravel, ending two solid days of debate, which leaders agreed had not changed one vote, brought a sigh of relief to weary members.

Springing a surprise at the last moment, Chairman Porter of the Foreign Affairs Committee, in charge of the fight, presented Representative Bourke Cockran, Democrat, New York, to make the closing argument for passage of the resolution. There had been talk during the day that Mr. Cockran would not be found in line with his party, but putting him forward to end the debate upset calculations. In the end, however, the New York member did not actually vote, as he was paired.

Mr. Kelley, who is chairman of the House conference at work on the Naval Bill with its disarmament amendment, made a bitter attack on the resolution, declaring Congress would live to apologize for its act, which he described as making peace with a mere clasp of the hand, after the fashion of professional wrestlers.

American Rights Debated.

The principal attack on the resolution was based by Democrats on the ground that it did not properly protect American rights and that the United States, in attempting to negotiate a treaty with Germany and her allies, would sit down with feet and hands tied and without being able to demand the rights won by war. Republicans held, however, that all rights were safeguarded.

Representative Garrett, Tennessee, the netting Democratic leader, Representative Connally, Democrat, Texas, and Mr. Flood made the principal speeches against the resolution, all declaring that the chief argument in support of its adoption was that it would pave the way for greater trade with Germany.

Failure of the Senate to accept the House substitute will send the whole question of peace to conference. Most of the Republican speakers declared Congress ought not to repeal the war declaration itself, holding it would be regarded as a repudiation of the war, but Democrats reminded them that a Republican House twice had passed a peace resolution with that provision.

LEACH—NALL.

Miss Zella Mae Nall and Mr. Henry Leach were married at Salinas, Cal., June the seventh at the home of Miss Nall's sister, Mrs. Birdie Britton. The newly wedded pair left at once for San Francisco where they will spend some time on their honeymoon before returning to their home here.

The groom is widely known, having been county school superintendent of Ohio county for four years

and superintendent of the Hartford High school for four years. Since leaving school work he was engaged in farming for a couple of years and in January, 1920, purchased the Ohio County Drug Store at this place and has been actively engaged in the drug business since that date. The bride is well known and well liked by all. She has been active in church and community work and is one of the finest young ladies in this community.

We wish to join their best of friends in wishing for them the best that life holds.

MRS. ORA E. MADDOX.

Mrs. Ora E. Maddox died at the home of her daughter, Mrs. E. E. Brown, at Livermore last Sunday. Mrs. Maddox was sixty-one years of age and was the widow of Lewis Maddox who preceded her in death some twenty years. She was a member of the Hartford Baptist Church and was a faithful and loved member. Her death came as a blow to her many friends, for she was in good health until her last illness.

Funeral services were held by Rev. Russell Walker, at West Providence Church Monday evening. The remains were laid to rest at the West Providence cemetery.

Mrs. Maddox is survived by two daughters, Mrs. Ellis Foster of Hartford and Mrs. E. E. Brown, of Livermore, one sister, Mrs. J. W. Loney of McHenry, one half-sister, Mrs. Luther Rinder of Beaver Dam and two half brothers, Mr. A. L. Maddox, of Rockport and Rev. Otis Maddox who has been doing missionary work in Brazil. The Republican extends its sympathies to the family in the loss of the loved one.

OTIS HOWARD HOME

Mr. Otis Howard, who graduated from the College of Engineering at the University of Kentucky this year, arrived home yesterday to spend several days with his parents, Mr. and Mrs. Charles Howard. Mr. Howard will go from here to the Great Lakes where he goes on a two weeks' cruise with the U. S. Naval Reserve. Mr. Howard holds an Ensign's Commission and must spend two weeks each year in active service to keep in trim shape. As soon as he returns from the cruise he will take up permanent employment with the Valley Meter Company, of Cleveland, Ohio. Mr. Howard has made a mighty fine record both at the University and in the service and we extend to him with his many friends our best wishes for a successful career.

MRS. ELIZABETH ACTON

Mrs. Elizabeth Acton died at the home of her daughter, Mrs. James B. York at Sulphur Springs, Monday. Mrs. Acton had been in ill health for some time but her condition was thought in no way to be serious. She was eighty-one years of age, and had been a resident of the county since birth.

Mrs. Acton was a member of the Methodist Church at Mt. Vernon and was an ardent and faithful member. Hers was the real Christian womanhood. She is survived by a great number of bereaved friends.

There are six sons and daughters surviving her, Mr. E. C. Acton, Indianapolis, Ind., Mrs. Sarah Duke, Owensboro, Mrs. Maud Daniel, Beaver Dam, Mrs. Eva Hurton, and Mrs. Martha York of Sulphur Springs.

Rev. H. S. Gillette held the funeral services Tuesday evening at Mt. Vernon church. The remains were interred in the cemetery at that place. We extend our sympathy to the bereaved family.

MISS LEACH MAKES ENVYABLE RECORD

Invitations to the commencement exercises of the Frankfort High School have been received here by the friends of Miss Alema Leach, who is a member of the class of '21. Miss Leach has made a remarkable record, she was neither absent or tardy for the entire year. She also had the honor of standing at the top of her class with an average of 94.

R. OF P. DECORATION

The local chapter of the Knights of Pythias held their Memorial services Sunday at Oakwood. The graves of all of the deceased Knights were decorated. A beautiful program was rendered.

MAJ. JOHN EMERY NEW LEGION HEAD

Indianapolis, Ind., June 14.—John G. Emery of Grand Rapids, Mich., was unanimously elected national commander of the American Legion at a meeting of the National Executive Committee today. He succeeds Col. Frederick W. Galbraith, Jr., who was killed in an automobile accident here last Thursday.

Following his election Commander Emery announced he would fill the speaking dates arranged by the late Mr. Galbraith so far as possible. Mr. Galbraith was killed in an automobile accident last week while on his way to catch a train to begin a speaking tour in the interest of the Legion.

Thomas J. Benningan of Hartford City, Conn., was elected vice commander, succeeding Mr. Emery in that position.

Major John Garfield Emery, national commander of the American Legion to succeed Col. Frederick W. Galbraith, Jr., saw much of the fighting that the American troops participated in during the World War.

Major Emery entered the second officers' training camp at Fort Sheridan, August 27, 1917. After finishing the course he was commissioned a Captain of Infantry and sent to France with the first group of Americans. He at first was assigned to the Railway Transportation office at Blois, France, and remained there until February 20, 1918. Later he attended the first corps school at Gendrecourt until March 24, when he took charge of Company F, 18th Infantry, First Brigade, First Division.

He participated in all the major actions with his regiment in 1918, at Cantigny in April, May and June; at St. Mihiel in September; and in the Meuse-Argonne offensive in September and October. He was commissioned a Major of Infantry August 30, 1918.

On October 9, 1918, during the Argonne drive, Major Emery was wounded in the left arm and was invalided home, being discharged at Camp Custer. Soon after his return to Grand Rapids he was elected a member of the Grand Rapids City Commission, a position he has held since that time. Before entering the service he was a real estate and insurance broker.

Major Emery was born July 4, 1881, in Grand Rapids.

As vice commander of the American Legion, Major Emery was a close friend and confidant of Commander Galbraith.

R. C. HUDSON

Mr. R. C. Hudson died at his home near Buford Wednesday morning at six o'clock. Mr. Hudson was past the ripe old age of seventy years. He has been in failing health for the past few months and his death while expected, was a great blow to his family and his great host of friends throughout the county. He was one of Ohio County's best and most substantial citizens. His loss will be keenly felt not only in his community but through out the entire county. He was widely known and his friends are numbered as all of those people who were fortunate enough to know him. He was born and reared in the county and has been a consistent member of Mt. Carmel Baptist church since early youth.

Burial services were held at Mt. Carmel church yesterday morning at eleven o'clock. The remains were interred in the cemetery near by.

Mr. Hudson is survived by his wife, Mrs. Sallie Nell Hudson and three children, John and Noble Hudson, and Mrs. Worth Wado. He leaves several brothers, one of whom is a resident of this place, Mr. C. A. Hudson. He was a brother-in-law of Mr. J. T. Riley of this place, and Mr. L. P. Barnard of Louisville.

We extend to the relatives and many friends of Mr. Hudson our heart-felt sorrow for their loss of a kind and helpful father and friend who has been the loss of all.

MASS CONVENTION MONDAY

The Democrat voters of Ohio County will meet at a mass convention at the court house in Hartford on Monday June 20, at one o'clock for the purpose of recommending and selecting candidates for the county offices to be voted on next November.

MOONSHINERS LOSE 50 GALLON STILL

Sheriff Bratcher, together with Deputies Tichenor, Johnson and Crow went to the aid of Sheriff Lyle, of Muhlenberg county last Thursday afternoon and captured the largest still yet to be found in this or adjoining counties.

The still had been operating in Muhlenberg county and turning the white juice over to the inhabitants of said county and Sheriff Lyle having made the work too hot for them, succeeded in driving the still and its operators over into this county. He was not satisfied with that but tracked the still down and sent for Sheriff Bratcher to come and make the raid. The still was located at Kincheloc's Bluff on Green River.

The boiler to the still had a capacity of about fifty gallons and the copper worm was sixty feet long. Four hundred and fifty gallons of mash were found nearby. It showed signs of recent operation but none of the white liquor was found nor were any arrests made.

JERRY TILFORD DEAD.

Mr. Jerry Telford died at his home in Fordsville early Wednesday morning. Mr. Telford was past the age of seventy years and has spent his entire life in this county. Heart failure is said to have caused his death.

He has been a conductor on the Texas branch of the Louisville and Nashville railroad for over thirty years. He has been a member of the Masonic Lodge for near fifty years. He had a wide circle of friends and his loss will be keenly felt by all who knew him.

Besides his widow, Mr. Telford leaves one son, Paul Telford, of Louisville, and one daughter, Mrs. Clarence DeWeese of Lexington.

Funeral services were conducted at the Mt. Pleasant Baptist church, in Fordsville, yesterday afternoon by the Masonic fraternity. The remains were interred in the cemetery nearby.

CALEB POWERS' WIFE LOSES SUIT

Washington, June 14.—The suit for limited divorce brought by Mrs. Anna M. D. Powers against Caleb Powers, former Representative in Congress from Kentucky, was dismissed today by Justice Stafford, in the District of Columbia Supreme Court.

Contentions of Powers that his wife was not a resident of Washington, and therefore could not sue for divorce in its courts, were sustained.

Mrs. Powers in her suit charged cruelty and inadequate support. Her counsel noted an appeal.

JAPAN YIELDS CONTROL OF YAP CABLES, REPORT

London, June 14.—Reuters learns that while fully maintaining her rights as mandatory over certain Pacific Islands, Japan is ready to agree to the United States exercising complete control over the American cables traversing the island of Yap to Menado and to Guam, and hopes that this plan will be acceptable to Washington.

Japan, according to Reuters, considers that as her mandate is one of the provisions of the Versailles treaty, no special island or mandate can be selected as an exception without altering the treaty itself, and therefore internationalization is out of the question.

HIG LOSS BY FIRE IN BEAVER DAM

Mr. Luther Chinn of Beaver Dam, suffered a four thousand dollar loss when a warehouse filled with fertilizer and farming implements burned Wednesday at noon. The origin of the fire is not known.

The warehouse was located in Beaver Dam, on the Goshen road. Before the fire was discovered it had made too great a headway for either the house or contents to be saved.

Mr. Chinn is one of Beaver Dam's most enterprising merchants and it is with regret that we learn of his loss.

FOREMAN—WYDLICK

Miss Mary Jane Foreman of this city and Mr. William Wydliek of

Earlington, were united in the holy bonds of matrimony last Thursday evening at the home of the bride's parents, Mr. and Mrs. E. P. Foreman, Rev. T. T. Frazier performing the ceremony.

Miss Foreman has been attending the local High School for the past two years and was one of Hartford's finest young ladies.

Mr. Wydliek was formerly assistant agent at the local L. & N. depot and made a wide circle of friends while here. At present he is employed in similar work at Earlington.

The young couple left at once on a honeymoon trip to Chicago and Ashley, Ill., and other points in the south. They will make their home in Earlington.

The Republican wishes them a happy and successful married life.

MISS LLOYD TO BE GUEST OF HARTFORD LODGE

Hartford Lodge No. 675 will have an open session next Monday night after the regular business has been transacted, to which all Masons and their families are invited. The open session will begin at 8:30.

Miss Katie Lee Lloyd, who has been adopted by the fourteen Ohio County lodges will be the guest of honor and the local lodge is anxious that she be given a royal welcome.

Miss Lloyd has completed the school at the Masonic Home, to which place she was sent from the A. G. Lodge of Whitesville, and the Ohio County lodges have adopted her and will give her a High School education.

BLIND DEAF-MUTE, AS HOBO, RIDES 80 MILES

Louis, Ky., June 14.—Billie Bowe, an inmate of the County Infirmary, Wayne County, West Virginia, across the Big Sandy River from here, is deaf, dumb and blind, but his afflictions do not weigh heavily on him.

Escaping from the institution, the other day, he walked three miles to Wayne, boarded a freight train and rode the rods to Williamstown, W. Va., a distance of eighty miles without mishap.

He was taken into custody there and returned today to the infirmary. He was glad to get back, however, after his escapade.

YOUNG COUPLE MARRIED

Miss Iva Gibson of this place and Mr. Roma King of Beaver Dam, were married at the home of the bride Tuesday evening at three o'clock.

Miss Gibson has been employed by the Cumberland Telephone Company for the past year. Mr. King is engaged in business in Beaver Dam, where the young couple will make their home.

MRS. MCCRAKEN ENTERTAINS

On Wednesday afternoon June 15, Mrs. M. L. McCracken very delightfully entertained the Ladies Social Club, at her home on Walnut Street. She was assisted in receiving by Mrs. Claud Blankenship. A number of enjoyable games of Rook were played after which a delicious lunch was served. The guests were Mesdames F. L. Felix, Rowan Holbrook, E. G. Barrass, A. C. Porter, J. S. Glenn, Henderson Murphree, Darrell Sullivan, E. E. Birkhead, R. T. Collins, O. C. Martin, Mrs. Belle Cooper, Misses Lettie Marks, Myrtle Maddox, Lella Glenn, Margaret Marks and Mary Marks.

The following from Hartford attended the funeral of Mrs. Ora Maddox, at West Providence, Monday: Mr. and Mrs. Ellis Foster and little son, Mrs. Isaac Foster, Mr. and Mrs. S. A. Bratcher, Mr. and Mrs. John Bell, Messrs. Worth Tichenor, Muck Cook, Cal Keown and W. M. Fair. Rev. O. P. Maddox, missionary from Brazil, who has been visiting relatives in Tennessee, also attended the funeral. Rev. Maddox was a brother of the deceased.

Mr. and Mrs. Mose Coppage, of Eudora, Ark., have been visiting relatives and friends here and in the county. They will leave today for Owensboro where they will spend a few days before returning to their home. This is Mrs. Coppage's first trip to Ohio county in twelve years, and Mr. Coppage's first trip in thirty years. They motored thru, making the trip in two days.

DR. JOHN T. TIGERT ANNOUNCES CAMPAIGN

Declares War On All Types Of Bolshevism In America

Lexington, Ky., June 13.—Radicalism in every form will be combated by the bureau of education thru a campaign of "Americanization" to be conducted in the schools throughout the country, Dr. John T. Tigert, United States commissioner of education, declared in an address here today. He also announced that a campaign for the spreading of "visual education" thru the use of motion pictures would be started at once.

Dr. Tigert was speaking this afternoon at a luncheon given in his honor by civic clubs and the Lexington Board of Commerce. He came here to wind up his connection with the department of psychology of the University of Kentucky, of which he was head until his appointment as commissioner of education. He will receive the degree of doctor of laws at the annual commencement exercises of the university on Wednesday, being the only man other than governors of the state to be so honored in the history of the institution. Gov. Edwin P. Morrow also will receive the degree.

Sees Danger to Country.

"There is a serious situation facing this country today," said Dr. Tigert, speaking of his plan for an Americanization campaign. "There are persons in this country who are scattering un-American and revolutionary propaganda designed to tear down our government. Just how serious this situation is may be seen in the fact that at the last election they cast 912,000 votes.

"The first move in the campaign of Americanization will be thru lectures thruout the country showing the fallacy of Socialism, Communism, Bolshevism and kindred teachings. We are going to make use of a series of often lectures by Dr. Newell Dwight Hillis, pastor of Plymouth Church, Brooklyn, on "Better Americans." These lectures soon will be ready for distribution.

Explains Picture Plan.

After explaining his plan for "visual education" thru the use of a "daylight" screen for motion pictures, a recent invention by Thomas Edison and a number of other men working together, Dr. Tigert gave briefly one of the lectures planned to be used in the Americanization campaign. In closing, he said:

"Radicals tried to prevent my confirmation to the office of commissioner of education; they declared war on me and soon I shall declare war on them. The issue is clear cut as to whether we shall have a muscle government, with no recognition of property rights and no reward for genius and industry, or an intellectual government with opportunity for the individual to exercise his power to think and reap the benefits from his thinking."

COURT DECISION SAVES ROAD FUND \$100,000

Frankfort, Ky., June 14.—County court clerks are not entitled to 5 per cent for collecting the automobile license tax in addition to 30 cents for issuing the license, Chief Justice Rollin Hurt said today, dissolving an injunction granted St. H. Lewis, Fayette County, and J. B. Nash, Franklin County, in the Franklin Circuit Court against State Inspector and Examiner Henry E. James.

The injunction was to restrain the inspector from proceeding to recover the 5 per cent commission retained by them. The commission would have cost the State road fund about \$100,000 this year.

MARRIAGE LICENSES.

William R. Widick, Earlington, to Mary Foreman, Hartford.
O. D. McKinney, Beaver Dam, to Ella J. Taylor, Beaver Dam.
Everett Hudson, Select, to Floy Allen, Select.
Foster Smith, McHenry, to Myrtle Reynolds, McHenry.
R. H. King, Beaver Dam, to Iva Gibson, Hartford.
John M. Chinn, Beaver Dam, to Dora Murphy, Beaver Dam.

THACHER'S PACKER AGREEMENT BUNK

Thacher Tells House of Camouflage To prevent Legislation By Congress.

Washington, June 11.—How Attorney General Thacher, under the Wilson administration, made a grand bluff at luring the meat packers to justice and failed to such an extent that the Republican Congress was compelled to come to the rescue is told by Representative Thacher of Kansas, a member of the House Committee on Agriculture. He says:

"The Department of Justice commenced an investigation, under the direction of A. Mitchell Palmer, then Attorney general, and it was heralded over the United States through the press that he had sufficient evidence to prosecute the packers criminally and to begin action against them civilly under the then, as well as present, existing laws.

"The Committee on Agriculture of the House had had about fifty days' hard work in hearings on the subject, when, like a clap of thunder out of a clear blue sky, came the announcement that the Department of Justice had cured all the evils in the packing industry by what is now the famous consent decree entered into between the packers and the Department of Justice, without reference to any existing law or to any precedent for such a decree. This was followed by the Attorney General's appearance before the Agricultural Committee, in which he took the firm and unequivocal stand that Congress should not pass any legislation; that his decree had removed all the evils; and that in the future there would be no trouble about the packers.

"Personally, I had the pleasure of telling the Attorney General at that time that in my judgment the decree would do more harm than good; that the interests of the great masses of the people were not at all considered in the agreement; that the decree was a camouflage to stop legislation and to protect the packers; and that the great publicity it was receiving was unwarranted by the facts. However, the decree, and the Attorney General's attitude, had this effect:

"There was no chance whatever to report any packer legislation out of the Agricultural Committee during the special or first regular session of the Sixty-sixth Congress. Then came the recess, followed by the short session of the Sixty-sixth Congress. The consent decree was in force during this recess, and there is no question in the world but what every member of the Agriculture Committee came to Washington upon the convening of the short session of the Sixty-sixth Congress firmly convinced that the decree was bunk."

If you have the itch, don't scratch. It does not cure the trouble and makes the skin bleed. Apply Ballard's Snow Lintment. Rub it in gently on the affected parts. It relieves itching instantly and a few applications removes the cause thus performing a permanent cure. Price 30c, 60c and \$1.20 per bottle. Sold by Ohio County Drug Co.

600 MEN TRAPPED IN MINE BLAZE AT PERU

Peru, Ill., June 10.—Six hundred miners who were trapped in the Chicago, Milwaukee and St. Paul railroad mine at Mark, ten miles south of Peru, when fire started half a mile from the shaft shortly before noon, are all believed to have escaped via emergency shafts. The state rescue crew has sealed the burning tunnel.

Whether all the men in the mine have been rescued will not be known until company officials check the rescued with the payroll lists, James Steel, superintendent, announced.

The rescue crew made one attempt to enter the tunnel, but was unable to go within half a mile of the fire.

The fire started in a machine shop about half a mile back from the main shaft and blocked the exit of the 600 miners.

Children Cry FOR FLETCHER'S CASTOR OIL

CABINET IS GIVEN DETAILS OF TREATY

Washington, June 10.—Efforts to induce the Mexican government to enter into a treaty of commerce and amity as a condition to recognition were reported by Secretary Hughes today to President Harding and his cabinet. The report was understood to have consisted of a brief summary of the steps which have been taken thru George T. Summerlin, the American charge d'affaires at Mexico City, to reach an understanding for the signing of the proposed treaty.

While official information of the situation was lacking here today, it is known that President Obregon has

affirmed the State Department that he does not consider himself free, because of constitutional restrictions to sign such a movement as proposed. Formal statements issued at Mexico have indicated his willingness to agree to a treaty if certain modifications are made. Here it has been indicated that no modification affecting the principle involved will be made, and that the United States will insist that property of Americans in Mexico shall be safeguarded against confiscation.

Officials of the administration were said not to be convinced that President Obregon has definitely rejected the offer to negotiate the treaty, and Mr. Summerlin, who submitted the proposal, was described as waiting the announcement of a more definite reply.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, etc.

Hall's Family Pills for constipation.

REASONS VERY CLEAR

"Let me have sleeping accommodations on the train to Ottawa," I said to the man at the window, who didn't seem at all concerned whether I took the trip or stayed at home.

"For a single passenger?" he finally inquired.

"No," I replied; "I'm married, but I am not taking anybody with me. A single shelf will answer."

"Upper or lower?" he asked.

"What's the difference?" I inquired.

"A difference of 50 cents," came the answer. "Our prices to Ottawa are \$1.50 and \$2. You understand, of course," explained the agent, "the lower is higher than the upper. The higher price is for the lower berth. If you want it lower, you'll have to go higher. It didn't use to be so, but we found everybody wanted the lower. The higher up some people are, you know, the lower they want to get in a sleeper, and that compels a lot of folks who prefer to be lower, to go higher. In other words, the higher the fewer."

"Why do they all prefer the lower?" I broke in.

"On account of its convenience," he replied. "Most persons don't like the upper, although it's lower, on account of its being higher, and because when you occupy an upper, you have to get up to go to bed, and then get down when you get up. I would advise you to take the lower, although it's higher than the upper, for the reason I have just stated, that the upper, is lower than the lower, because it is higher. You can have the lower if you pay higher, but if you are willing to go higher, it will be lower."

TO BUY OLD BATTLEFIELD

Washington, June 11.—Historic Chalmette battlefield, just below New Orleans, where Gen. Andrew Jackson met and defeated the British in 1812, will be purchased by the government and turned into a national military park, if Congress accepts the recommendation of a report made by Representative Hull of Iowa, of the Committee on Military Affairs.

The measure was submitted to the Secretary of War, and he in turn submitted it to the United States Engineers Office for report. This has been made with the recommendation that the park be established.

In order to do so about 266 acres of land must be purchased, at an estimated cost of \$2,000 per acre, and it is figured that the total cost of establishing the park will be in round figures about \$500,000.

The Federal Government already owns a small portion of the land on which is now located the Chalmette Monument, and there is a small strip near by on which is established a memorial by the National Daughters of the American Revolution. It is proposed to purchase the land between these two sites.

Put This Out and Take It With You.

A man often forgets the exact name of the article he wishes to purchase, and as a last resort takes something else instead. That is always disappointing and unsatisfactory. The safe way is to cut this out and take it with you so as to make sure of getting Chamberlain's Tablets. You will find nothing quite so satisfactory for constipation and indigestion.

"Why are you asking me for help? Haven't you any close relations?"

"Yes. That's the reason why I'm appealing to you."

HARDING'S FAIRNESS LIKED BY CONGRESS

Attitude Toward Labor, Agriculture And Industry Appeals To Legislators.

Washington, June 13.—Members of Congress have been carefully studying the general policy outlined by President Harding toward labor, manufacturing and agriculture in his speeches of the past few days. With this policy they agree. Hence accentuate harmony between the Republican executive and the Republican Congress.

These are the utterances which they have singled out as expressive of the policy of the new administration:

"Justice, like charity, must begin at home. We must be just to ourselves and to our own, first of all. This is not selfish, for selfishness seeks more than a fair share; we seek only that which is rightfully our own and then to preserve that to ourselves and our posterity. The war sadly disjoined things in the world, and we are now seeking to restore the proper balance. In our efforts to do this, to achieve justice without selfishness, we will do well to cling to our firm foundations. I believe in the inspired beginning. There we will find that national greatness was founded on agriculture, that later we developed industry, and ultimately commerce, both domestic and foreign.

"The country has emerged from the hectic prosperity following the war, and is suffering from depression. We are confronted by the need to place our own house in order, and no more important feature of that effort can be visioned than to place our agricultural industry on a sound basis, and provide machinery and facilities for financing and distributing crops. If we do this, we merely will be providing the farmer with facilities similar to those enjoyed by the business community generally. The farmer is entitled to all the help the Government can give him without injustice to others, because it is of the utmost importance that the agricultural community, be contented and prosperous.

"Turning to industry, our policy must be to give it every facility possible, but to keep Government outside of participation in business for the Government to intrude itself in the business activities which are better conducted through private instrumentalities, merely in order to demonstrate that the Government is more powerful than anything else in this country."

For The Relief of Rheumatic Pains.

When you have stiffness and soreness of the muscles, aching joints and find it difficult to move without pain try massaging the affected parts with Chamberlain's Liniment. It will relieve the pain and make rest and sleep possible.

KINGS YIELD TO FRANKLIN

At a recent auction in Philadelphia documents signed by royal personages centuries ago brought only from \$1 to \$14 each while an original essay by Franklin went for \$270. A decree signed by Louis XIII of France went for \$1 and a paper signed by the famous Louis XIV sold for only \$8.75. A signature of Napoleon I. brought \$6 while a letter signed by James II brought \$14. Much higher prices were paid for documents concerning the American revolution.

IMMIGRANTS PACK INCOMING SHIPS

In a frantic endeavor to get to this country before the new immigration laws went into effect, June 1, ships arriving in this country before that date were crowded with foreigners eager to make their home here. The immigration commissioner fears there are more already started from their native lands and now on the way here than can be admitted. Under the new three per cent immigration law the number of immigrants who will be admitted in June is as follows for the leading countries: United Kingdom, 5925; Norway 920; Sweden 1521; Denmark 423; Netherlands 276; Belgium 119; France 437; Switzerland 287; Germany 3213; Finland 225; Africa nine.

Rastus and George, caught by a sudden shower, had been forced to seek shelter under a tree. "D' rain's beginnin' to come thru dis heah tree," complained George.

"Makes no difference," Rastus informed him. "When dis one's wet clean thru we'll get another one."

"Mummy, I'm goin' to give Auntie Mend my spade and pall."

"What for, Willie?"

"So she can klick it."

"Klick it?"

"Yes, Daddy said we would have a lot of money if auntie would klick the bucket."

Ford
THE UNIVERSAL CAR

ABOUT FORD CARS—SOLID LOGIC

The Ford car has been fundamentally right from the beginning. That fact made it "The Universal Car." It has always lead in lowest first cost as well as in lowest cost to maintain and operate.

Runabout, Touring Car, Coupe, Sedan, Truck and Fordson Tractor—we have them all and will make reasonably prompt delivery.

Simplicity has ever marked the designing and building of Ford cars, trucks and tractors. Henry Ford and his engineers have always striven for simplicity with strength. The success of the Model "T" Ford car and a great part of the Ford Motor Company's success has come from an early understanding and appreciation of that principle in motor car construction. The fewer the parts in a car, fewer the parts to go wrong. When that simple truth is carried out in producing a car, as it is in Ford cars, trucks and tractors, the result is bound to be a simplicity of design and building that means simplicity, durability and economy of operation.

This simplicity of construction proves it in the ease with which Ford cars, trucks and tractors are driven. Four million five hundred Ford cars in daily service proves every claim we make.

More than ever we are sure the Ford car is your necessity—let's have your order today.

BEAVER DAM AUTO COMPANY

BEAVER DAM, KENTUCKY

I'd walk a mile for a Camel

The pleasure is worth it. There's no substitute for Camel quality and that mild, fragrant Camel blend.

The fellow who smokes Camels, wants Camels. That's because Camels have a smoothness, a fragrance and a mildness you can't get in another cigarette.

Don't let anyone tell you that any other cigarette at any price is so good as Camels.

Let your own taste be the judge. Try Camels for yourself. A few smooth, refreshing puffs and you'd walk a mile for a Camel, too.

WILL PROTECT MOTHERHOOD

Washington, June 13.—Protection of maternity and infancy by providing opportunity for mothers everywhere to receive suitable instruction in child hygiene is given in a bill favorably reported to the Senate by Chairman Kenyon, of the Senate Committee on Education and Labor.

The measure is the result of disclosures by the Children's Bureau that 23,000 mothers died in 1918 from causes connected with childbirth. The Bureau also demonstrated:

High maternal mortality rates, above the average for the United States as a whole.

The fact that 80 per cent of the mothers had received no advice or trained care during pregnancy.

Many mothers had no trained attendants of any kind at confinement.

CAMP TAYLOR GOING

FINAL SALE JUNE 21
Louisville, Ky., June 17.—Last of the property that once composed Camp Zachary Taylor to be placed on the auction block, the hospital area and its buildings will be sold

June 21 and following days. It was announced this morning. Jefferson Post of American Legion, Kentucky's Senators and Representatives and the State Board of Health fought hard to have the hospital converted into a permanent hospital for the rehabilitation of wounded and disabled soldiers, but the War Department persisted in its intention to dispose of the entire camp, and now announcement of the date of sale writes the last words of the unsuccessful effort.

The buildings of the hospital that are to be sold are more than 100 in number, including administration buildings, surgical wards, quarters for officer physicians and the Red Cross building. About ninety acres of land are included in the area. These have been divided into small farms, which will be auctioned off separately.

GOOD MAKES ECONOMY PLEA, FOR DEFICIENCY

Predicts Need Of Such Measures Will End With Enactment Of Budget System.

Washington, June 13.—Explanation of the reason for the deficiency appropriation bill which has just passed both houses of Congress, is made by Chairman Good, of the House Committee on Appropriations. He says:

"I know that there is quite a prejudice—one which I myself entertain to some degree—against deficiency appropriation bills. I think a part of the prejudice of the public and some of the members of the House against deficiency bills grows out of a failure to understand the process of making up appropriation bills. The estimates that were made for the fiscal year ending June 30, 1921, were made back in the fall of the year 1919. They were submitted to Congress at the opening of the session in December of that year and published in the Book of Estimates. The appropriations were made more than 15 months prior to the end of that fiscal year. Of course much can transpire between the time of making these appropriations and the actual spending of the money that required modification and changes. The committees having jurisdiction of appropriations for all of these years have, I think, wisely adopted the policy of reducing estimates wherever they thought the estimates could be safely reduced, and they have reduced them upon this theory, that it would be unwise to appropriate for all of the services, including the emergencies that might arise, because if you were to appropriate for all the seen and unforeseen contingencies you would make the appropriations so large that it would invite the rankest extravagance in the administration of the appropriations."

"So Congress has taken this view of the matter, that we would cut down the appropriations to the minimum, and if, perchance, some unforeseen emergency should arise, or if the cut in the estimate proved too drastic, Congress would be in session and would grant a deficiency appropriation."

"That has been the theory of these different committees and the theory of Congress, no matter which political party has been in power; and I submit it has not been a bad theory during the time when we have had no budget system, no law by which we had checks and balances upon appropriations. I believe that the budget law that will soon, I hope, be enacted will obviate many of the necessities for deficiencies."

A regular morning operation of the bowels puts you in line shape for the day's work. If you miss it you feel uncomfortable and cannot put vim into your movements. For all bowel irregularities Herkin is the remedy. It purifies, strengthens and regulates. Price 60c. Sold by Ohio County Drug Co.

SILESIAN ISSUE AWAITS DECISION

The Poles are retaining possession of the part of Upper Silesia seized by Korfanty, but their hold is weakening as all parties await the decision of the supreme council of premiers at Paris. The Polish premier, Witos, unable to solve the problem, offered his resignation, which was not accepted. England has sent four entire divisions to the field in accordance with the promise of Lloyd George, who wants a prompt settlement. Premier Briand of France desires to have an investigation conducted first but it is believed the two premiers are getting closer together on the subject. The insurgent Poles have been accused of many atrocities. A party of soldiers were reported to have appeared at the Duke of Ratibor's castle at Dauden und to have forced the daughters of the duke, young princesses, to serve them food and costly wines, after being stripped of all clothing.

Children that are affected by worms are pale and sickly and liable to contract some fatal disease. White's Cream Vermifuge expels worms promptly and puts the child on the road to health. Price 35c per bottle. Sold by Ohio County Drug Co.

TO HONOR 1ST. DIVISION

Washington, June 13.—Provision for a memorial to the dead of the First Division, American Expeditionary Forces, to cost \$150,000, is made by Senator Warren of Wyoming in a report from the Committee on Public Buildings and Grounds.

The Division entered Germany with the Army of Occupation and occupied a sector of the Coblenz Bridgehead. Just as it was the first to go, so it was the last to return, and it reached New York on September 6, 1919. During the Division's campaigns

and battles its losses amounted to 249 officers and 5,040 enlisted men killed in action or died of wounds, and 641 officers and 19,690 enlisted men wounded in action.

Before leaving Germany the Division secured funds from private sources and erected five monuments on the principal battlefields bearing in bronze the names of all who fell on each field. Immediately upon returning to the United States the First Division Memorial Association began to raise funds for the erection of a worthy monument in the city of Washington which should bear in honor the names of those who gave their lives in its ranks, and which should preserve forever their spirit of courage and sacrifice as an inspiration to our people. At present the fund amounts to \$120,000, and it is intended to increase the sum to \$150,000. It is proposed to secure a suitable design, which will not only fulfill the purpose desired, but which will be an ornament to the National Capital.

Best Remedy for Stomach Trouble

"I am pleased to have the opportunity to say a good word for Chamberlain's Tablets," writes Mrs. Mamie Bertel of Moberly, Mo., "I think they are the best remedy for stomach troubles, biliousness and constipation I have ever used. I have taken them off and on for two or three years and they always relieve indigestion, tone up the liver and make me feel fine."

PLAN TO TAX WEALTH

Chancellor Wirth has announced that in "working out paying for German liberty" the classes which made no real sacrifices during the war must "stand the gaff." He declared that heavy taxes would be placed on improvidence, extravagance and luxury, which will be indicated in the manner of living of the various classes of citizens. He advised the Germans in a speech at Freiburg that they must buckle down, grit their teeth and pay off the debt. Referring to the socialists he declared the people must not lose themselves "in cosmopolitan dreams."

Surgeons agree that in cases of cuts, burns, bruises and wounds the first treatment is most important. When an efficient antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, Borozone is the ideal antiseptic and healing agent. Buy it now and be ready for an emergency. Price 30c, 60c and \$1.20. Sold by Ohio County Drug Co.

The Story of Our States

By JONATHAN BRACE XIII.—RHODE ISLAND

RHODE ISLAND is not really the name of this state. As can be seen from the state seal, the official name is the "State of Rhode Island and Providence Plantations." It originated from two distinct settlements. The first was made by Roger Williams in 1636. He was the pastor of a church in Salem. As he advocated radical reforms he was ordered to return to England, but fled to the Narragansett tribe of Indians. From them he obtained a tract of land and called the town which he established Providence, in token of God's mercy which had so far provided for him.

About the same time Mrs. Anne Hutchinson and her followers were expelled from Massachusetts on account of a theological dispute. She made her way to the island of Aquidneck, which she purchased from the Indians for 40 fathoms of white wampum, 20 hoes and 10 coats. The name of this island was changed to the Isle of Rhodes, probably after the famous Greek island in the Mediterranean. By common usage it became known as Rhode Island. In 1662 Charles II gave Rhode Island a very liberal charter, and this remained in force until 1841, when a new state constitution was adopted by mass conventions, and two years later another new constitution was legally voted. The change in constitutions caused what was known as Dorr's rebellion.

The entrance of Rhode Island into the Union in 1790 completed the list of the original thirteen states. Though Rhode Island is the smallest of all the states, with only 1,248 square miles, it is very thickly populated and has five presidential electors, which is more than those of a number of states of much larger territory. SOLDIER-AID TOTALS GIVEN BY DR. FESS

200,000 Veterans Now in Process Of Rehabilitation For Future Usefulness.

Washington, June 13.—What the Republican Congress has done during the past two years in rehabilitating the soldiers who participated in the World War is told by Chairman Simon D. Fess, of the House Committee on Education. "I think it is a remarkable showing," he said. "Those eligible for section 2, training, which is training with allowances, amount to 114,584 people. Those eligible for training in section 3, which has no pay allowance, amount to 80,975. As of April 1, 1921, the following numbers have entered training: Training for pay, 81,481; training without pay, 10,496; training under the Elk's Fund, \$9; making a total now in training of 92,066."

"On March 15, 3,123 men are reported as having completed training and 7,370 as having discontinued. Approximately 50 per cent of the latter have entered employment as the result of training—this in addition to the 3,123 definitely reported as rehabilitated or completed. The Chairman of the Committee on Appropriations spoke about the increased demand for appropriations because of a deficiency of from \$15,000,000 to \$30,000,000 as the closing down or slowing up of business has caused a great many persons who heretofore might be at work to seek the training because they were dissatisfied with the prospects without training. The figures show that the board is using about 2,000 schools and 8,000 plants and factories for the training of men. It also shows that up to March 1, 1921, the board had spent \$89,521,414 since the passage of the rehabilitation act of June 17, 1918, two and a half years ago."

"Of this amount \$68,000,000 has been spent in direct allowances for maintenance to the men themselves. The overhead for the entire time since the organization of the rehabilitation work, which includes rent, office equipment and supplies, salaries, printing, travel and subsistence of employees, telephone and telegraph, etc., was approximately 14 per cent. We thought when the Committee on Education last year made an investigation of the rehabilitation work that the overhead charge was too heavy. This overhead has not been reduced to less than 8 per cent in the month of March, 1921."

Teething babies always have a hard time of it when this process occurs in hot weather. They not only have to contend with painful gums but the stomach is disordered, bowels loose and the body uncomfortable. The best help you can give the little sufferer is McGe's Baby Elixir. It corrects sour stomach, cools and quiets the bowels and helps digestion. Price 35c and 60c per bottle. Sold by Ohio County Drug Co.

"INVISIBLE LIGHT" FOR WAR SIGNALING

While the World War was on the U. S. government assigned to a group of American scientists the problem of finding a light which would be visible to those who knew of it but which the enemy could not see. The problem was solved but the solution came too late to be used in a practical way in the war. The apparatus used consists essentially of a special kind of lens, a sort of "chemical eye." This renders visible ultraviolet rays which are imperceptible to the unaided human eye.

According to Prof. R. W. Wood of John Hopkins university, who had a prominent part in perfecting the device, it could be used to good advantage by airplanes, battleships or land forces for signaling. It would also be useful for guiding aviators safely to landing fields at night. Aviators and others, provided with the special lenses of course would be able to pick up the signal but the enemy, without such a lens, would not even suspect the presence of any light. The uses of the invention in war, Prof Wood believes, are virtually unlimited.

Children Cry FOR FLETCHER'S CASTORIA SCHOOLS FAIL TO EDUCATE

At a meeting of the American Society of Mechanical Engineers held in Chicago, speakers were unanimous in their demand that college and workshop be linked together in order to obtain a proper industrial training. H. E. Miles of the National Manufacturers' Association said that half the children leave school without a real education. Of 5,000 high schools investigated, he said, only 2,000 taught civics, and in most of these schools civics, so-called, was really a

talk on current events with poor materials as a basis. A test of 1,500,000 enlisted men during the war showed, he added, that only one-tenth of them were college bred, and of the remaining nine-tenths, 25 per cent were illiterate.

Speaking on the elimination of waste in industry, L. W. Wallace, chairman of a committee appointed by Herbert Hoover to investigate national waste said: "Changing styles caused great waste in the manufacture of women's hats, shoes and millinery. A loss of production due to lack of standardization is an element of waste occurring in every industry. Such a slight thing as the change in the cut of the lapel in a man's coat means a 25 per cent reduction in production." Other speakers pointed out that stupendous waste could be wiped out by applying the principles of engineering—but they forgot to add that the style-mongers would first have to be killed.

AMERICANS ARE IMPROVING PHYSICALLY

At the time of the Chicago world's fair in 1893 Dr. D. A. Sargent, a physical-training expert, recorded a set of figures pertaining to the physique of Americans. After comparing these statistics with the results of a recent tabulation he announces that American girls average an inch taller and 10 pounds heavier now than they did then. College men, he finds, average two inches more in stature and nine pounds more in weight than they did in 1893.

If increased stature and avoirdupois indicate general physical improvement—and it may fairly be assumed that they do—it appears that those pessimists who for years have been dolefully opining that Americans are going to the bow wows physically—and otherwise—have another guess coming.

It is true that the consumption of tobacco, particularly in the form of cigarettes, has been on the increase during the period covered by the figures. The girls have gone in more and more for dancing, late hours, low-necked gowns and the shereest and lightest of attire; some of them have even acquired the cigarette habit. Both sexes have traveled at a swifter pace than any of their forebears and have formed habits that, theoretically at least, are deleterious to the health.

If our race has improved physically as Dr. Sargent's figures show must we conclude that dancing, décollete gowns, the use of tobacco and other things so much and so frequently deplored and censured are less ruinous than the reformers would have us believe? It has been conclusively proved time and again that indulgence in tobacco, intemperance in eating and drinking, unhygienic dress, late hours etc., weaken the constitution and undermine the health.

Doubtless if the matter could be sifted to the bottom we should find that Americans nowadays are better physically than Americans of a generation and more ago because they go in more for athletics, give their bodies more and better attention, have more time for recreation and relaxation and in general live more hygienically. All these things, it may be, not only serve in a measure to counterbalance the harmful effects of modern bad habits but make us physically superior to our predecessors.

In the course of the afternoon the boss plumber visited a job, and failing to find his workman anywhere about the premises, decided to await his return.

"Where have you been?" demanded the boss when he put in appearance.

"Gettin' my hair cut," answered the man quite coolly.

"And how dare you get your hair cut on my time?"

"Well, didn't it grow on your time?"

FAMOUS LAST WORDS

Let's look down the muzzle and see if it is loaded.

That's a train whistle—we can get across ahead of the train.

It won't explode. You can throw it on the ground.

The water isn't deep enough. I guess I will swim out farther.

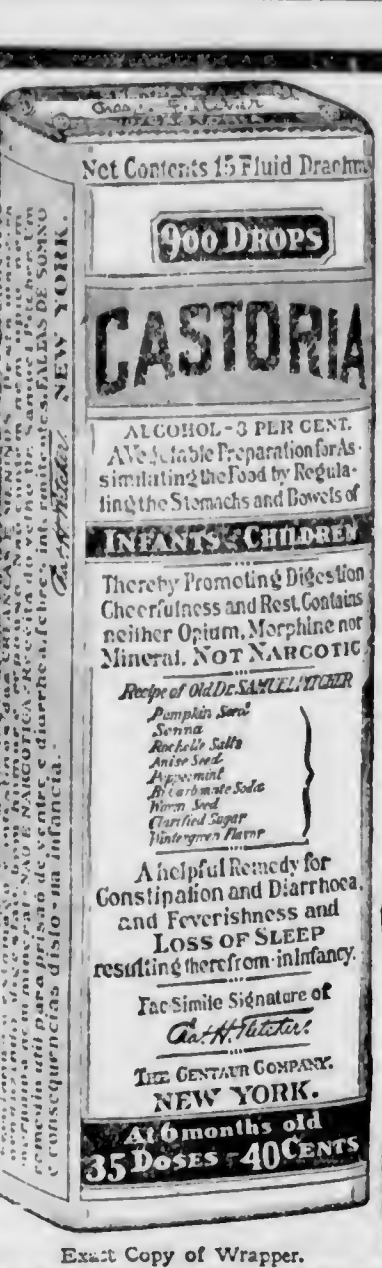

I'll show my wife who is the boss.

The ice is safe, I can tell you.

Do you take this woman for your lawful wife? I do.—Manchester Union.

THINKING TAKES TIME.

An inquisitive woman was once talking with James Whitcomb Riley about the poor material reward that comes to poets. "But, Mr. Riley," she said, "you have no cause for complaint. You must be a very rich man. I understand that you get a dollar a word for all you write." "Yes, madam," said Riley, with his slow drawl, "but sometimes I sit all day and can't think of a single word."

MRS. BERGDOLL PAYS \$23,000 IN FINES

Philadelphia, June 9.—Mrs. Emma C. Bergdoll, mother of the Bergdoll brothers, convicted Army deserters, saved herself and her four co-defendants charged with conspiracy to aid Grover C. and Erwin R. Bergdoll to evade Army service, from going to jail by paying today \$23,000 in fines recently imposed by the United States District Court here.

A certified check drawn by Charles A. Braun, one of Mrs. Bergdoll's sons, who changed his name because of the notoriety given the Bergdoll name by Grover, was given to the clerk of the court "under protest." It is understood an appeal from the conviction will be taken.

Mrs. Bergdoll, Braun, and James E. Romig, a friend of the family, were sentenced on May 17 to serve a year and a day in prison and fined \$7,000 each, and Harry S. Schuh and Albert S. Mitchell, an automobile salesman, were sentenced to six months and \$1,000 fines.

The court, however, announced that if the fines were paid before June 13, the prison sentences would be remitted.

MEMORIAL DAY IN ENGLAND

The grave of every American soldier in Great Britain was decorated on Memorial day by members of the American Legion. As a special event of the day a bust of George Washington was presented to the English by the Sulgrave Institution and other American organizations and was unveiled in St. Paul's cathedral, in London. Dean Inge paid a tribute to the American dead and Ambassador Harvey made a short speech. Messages were read from President Harding, Gen. Pershing and former Ambassador Davis.

Mother—Willie, every time you are naughty I get another gray hair. Willie—Goodness! You must have been a terror. Look at grandpa!

TELEPHONES

Farmers Mutual..... 59

FRIDAY.....JUNE 17

It looks as tho we can look forward
to a reduction in railway freight and
passenger rates in the near future.
The Labor Board has rendered a de-
cision in favor of a lower wage scale
and since the railroads claim that
seventy per cent of their operating
expense consists of wages, a reduction
in wages should be reflected in the
rates and tariffs.

The Kentucky State Board of
Health has been active during the
last fiscal year. The board has in-
spected 1100 hotels, 1200 restau-
rants, 286 bakeries and numerous
other food handling establishments.
Dr. A. T. McCormack, the State
Health Officer is a very capable
man. His efforts coupled with
those of Miss Sarah Vance, who is di-
rector of the bureau, have done much
to correct and improve the sanitary
conditions throughout the state.

The value of farm property in
Kentucky has increased ninety-five
and four tenths per cent since 1910.
It has increased ninety-seven per
cent in value in Ohio County during
this period. There is no reason why
it should not continue this phenom-
enal increase during the next ten
years. One hundred miles of good
concrete roads and fifteen good, first
class, consolidated schools will make
farming land in Ohio County worth
three times its present value. We
should have even more than this by
1930.

MRS. ELLEN BENNETT.

Mrs. Ellen Bennett was born in
Ohio county, Aug. 19th, 1858 and
died in Buda, Ohio county, June 1st,
1921 aged 63 years 9 months and 12
days. She was married to R. M.
Bennett December 25th 1886. She
is survived by her husband, one
daughter, Mrs. J. B. Rogers and three
sons, Stephen, Herman and Rupert.
She professed religion when about
fifteen years of age at a camp meet-
ing held at Nocreek camp-ground,
and joined the Methodist church. Af-
ter this she joined the Cumberland
Presbyterian church at Salem but
later her membership was removed
to Buda Presbyterian Church, where
she remained a faithful member until
death.

Sister Bennett was a woman of real
value to the world. She made the
world better by living in it. As a
christian she was true and faithful,
hence as the end was approaching she
gave assurance that all was well and
she longed to depart and be at rest.
As a wife she was loving, industrious
and economical so that it could be
said of her "The heart of her hus-
band doth safely trust in her so that
he shall have no need of spoil." As a
mother she was devoted and kind,
"Her children rise up and call her
blessed;" as a neighbor and friend
she was hospitable, obliging, helpful.
May her children and loved ones
strive to meet her in heaven.

Rev. R. D. BENNETT.

CASES SET FOR TRIAL AT THE JULY 1921 TERM

2nd Day—Tuesday July 5th.
Acme-Jones Co., vs. W. E. Ellis
&c.; N. P. Deppis vs. W. E. Maddox;

DUNDEE

Rev. Orville Cole, of Cincinnati, de-
livered an interesting sermon at the
Methodist Church Tuesday evening,
of last week.

Miss Margerite Renfrow of Owens-
boro has been the guest of her
grandparents, Mr. and Mrs. Mart
Renfrow, for the past few days.

Mrs. J. A. Duff and little son, Bil-
ly, have returned from a visit with
Mrs. Jones, at Philpot.

Mr. and Mrs. Sargent of Owens-
boro, were the guests of Mr. Sar-
gent's sister, Mrs. B. F. Bean, Satur-
day and Sunday.

Mr. Mack Martin is wearing a big
smile, over the arrival of a brand new
boy at his home.

Miss Abbie Whittenhill of Fords-
ville, spent Saturday with Mrs. Cora
Renfrow, at the Dean hotel.

Miss Grace Hartford of Owensboro,
was the guest of Mr. Will Fletcher
Bean and Mrs. Bean, a few days the
past week.

Mrs. Paris McDonnell and Mrs.
Cora Renfrow are on the sick list.

BARNETT'S CREEK

Mr. Edward Mason and family
were the guests of Mr. English
Brooks and wife Sunday.

Mr. Clifton Hoover and family
spent Sunday with Mrs. Sis Whit-
taker.

Mrs. E. Craftree returned home
Sunday after spending a few days
with her daughter, Mrs. Ellis Hoov-
er.

Sunday School is progressing nicely
at this place.

Master Lenor Wade is visiting his
grandmother, Mrs. Cloah Wade.

Audra, the little daughter of Mr.
George Patton, is ill of typhoid fe-
ver.

Mrs. Sallie B. Richeson who has
been ill for some time, is able to be
out again.

Several from here attended the
Children's day at New Bethel, Sun-
day.

Judge Mack Cook returned from
Frankfort Wednesday where he had
gone to attend a road meeting. Bids
were received on the Owensboro-
Hartford road at this meeting. We
were unable to learn at press hour
whether any of the bids were accepted
and if so to whom the contract was
let.

Settle Suit Over Hymn

After 15 years litigation by the
heirs of J. P. Webster, author of the
famous hymn, "In the Sweet Bye and
Bye," the case has been settled by a
payment of \$56,000 by the publish-
ers, the Ditson Co.

BEADS ODDLY STRUNG

(By I. D. Claire.)

The extreme simplicity and com-
monplaceness of these paragraphs is
due to Fluke's complaint that he had
to climb a stepladder to read those
I wrote last week.

I ran into a whole bunch of Ho-
brew junk dealers, up in the Hay-
market district last week, many one
of whom might pose for a passably
good picture of my old friend Albert
Cox. It was a regular whiskers
brigade.

If Clem Moxley gets too loud in
his boast of being the "Bull of the
Woods" in the matter of physical
symmetry and sameness of disposi-
tion, I'll just come back to Ohio
County and show him.

In the absence of federal funds to
enforce prohibition beer, honest-to-
goodness beer, is flowing like water
in Louisville. I mention this so if
Fluke is tardy about returning from
that lodge meeting at Lexington the
folks down home may know why.

I guess Aus Bratcher doesn't ex-
pect to run for office anymore, from
the way he is making enemies by cut-
tin' up moonshine stills.

When R. H. Basham is elected con-
stable, evildoers had better look a
little out. I don't know Mr. Basham,
but I see he has nerve.

After afflictin' his day and genera-
tion with a lot of rotten newspaper
stuff, Luke McLuke died last week.
Now if that fellow who writes the
corruptest sort of stuff under a cor-
ruption of the Cincinnati name
would go and do likewise the read-
ing public would get further relief.

There is no pot of gold at the end
of the rainbow, I know, because I
saw the end of a rainbow, Sunday
afternoon. I witnessed the remark-
able phenomenon of a rainbow form-
ed on the street, just in front of my
home. The outline was as perfect
as any I had ever seen in the sky.
It laid athwart the street car track,
and a passing car picked it up and
reflected it very clearly from its side.

I have experienced some delay in
receiving mail from friends "down
home" because they did not know my
address. To avoid a recurrence of
such delay I will mention that my
home address is 933 Second street,
and my office address is Room 306,
Custom House.

I'll have a week's vacation due me
before Fluke takes his fall fishing
trip, and if he'll let me come down
and get out the paper for him while
he is gone I'll bring him a quart
of the real stuff, so he won't have
to get balked up with that pesky de-
acon again.

I'm thinking about ordering my
subscription to the Republican stop-
ped because it don't print the news.
Why, from reading it I could not tell
whether Battle Hall was planted out
at Oakwood, if Eck Rial had moved
away or if the Kaiser had been ar-
rested for making false returns in his
income tax report. I like to read
what the prominent men of the town
are doing.

HERBERT

Mr. and Mrs. S. V. Flowers were
guests of Mr. and Mrs. J. M. Jenkins
Sunday.

Mr. and Mrs. Henry Milligan and
daughter, Elena, visited Mr. and Mrs.
J. W. Reardon Sunday.

Mrs. Florence Winkler has been
visiting Mr. and Mrs. Adam Riech-
mond.

Mr. and Mrs. J. W. Reardon enter-
tained the following guests Sunday
afternoon in honor of their niece,
Miss Emma Miller, of Hartford:

Misses Mildred, Marie and Allie Day,
Elena Milligan, Elizabeth House and
Nina Burdette; Messrs. Taylor Skin-
ner, Virgil and Henry Chambers.

Several from here attended services
at Haynesville church Sunday.

Miss Connie Mae Sannett and Mr.
Otis Staples, of Whitesville, were
the guests of Miss Virgie Mae Bur-
dette Sunday afternoon.

Mr. Elmer Harrison, wife and
children spent Sunday with Mr. and
Mrs. L. J. Taylor.

The Southern Chautauqua Service
furnishes this entertainment, and the
Bureau is conceded to be one of the
very best in the country. All these
attractions can be heard for a trifle.

It is entertainment, instruction, in-
spiration, brought to our door, and
no one can afford to miss it.

Purchase your season ticket on sale
at JAMES H. WILLIAMS' DRUG
STORE. Price \$2.00.

HASE HALL BRIEFS

The McHenry Majestics defeated
Rod Boy at McHenry the afternoon
of the Parent Teachers' picnic by the
score of 16 to 7.

Beaver Dam journeyed to Logans-
port Saturday and lost a hard-fought
game. With two out, the score 7 to 6
in favor of Beaver Dam and the last
inning on, the Beavers were defeated
when Logansport's clean up man lined
out a home run with two on the
bases. Cissel and Glenn composed
the battery for Beaver Dam.

The Beaver Dam team lost another
tough game at Hartford, Sunday, to
the Anglo Milling team of Owensboro.

The game was a scorcher until the
sixth, Stevens allowing but one hit
and the Milling team's pitcher allow-
ing but two hits. At the start of
the sixth Dossett went to the mound
for Beaver Dam and before he could
strike his stride the Flour Dusters
had scored six runs. The Beaver Dam
boys had the edge on the Owensboro
boys in every department of the game
and should have earned a shut out.

The Sulphur Springs and Sunay-
dale ball teams played a good game
at Sulphur Springs, Sunday. The

Spring boys coming out victors 7 to
0. Several years back the Sulphur
Springs team was the best in the
entire county and from the score it
looks like they are going to make
themselves heard from before the
season is over.

Whenever a game is played in the
county or out of the county and an
Ohio County team is a participant,
the Republican wants the results. It
is an item of interest to every fan
and at the same time it gives to the
teams a little credit for a game won

or lost. If every team will make it
a practice to send in the results, we
will run a club standing showing
each team, who it has played, the
number of games won and lost and
if complete box scores can be sent
in, the batting of every team togeth-
er with the individual batting will
be kept and carried over from week
to week. Select some one man and
let him attend to this feature of the
game. We will appreciate it, the
fans will appreciate it and it will
add much to the interest in baseball
in the county.

ANNOUNCEMENTS

For Circuit Judge

We are authorized to announce
C. W. SLACK
a candidate for Judge of the Sixth
Circuit Court District, of Kentucky,
November election, 1921.

For Commonwealth's Attorney

FAIR & CO.
THE FAIR DEALERS

Mr. Larry Minton and family left for Sunday in Louisville.

Keep the flies away from your stock by using Pratt's Fly Chaser. For sale by WILLIAMS & TAYLOR.

Mr. and Mrs. J. C. ... arrived here ... and several days ... with old friends.

Mr. Charlie King returned here Monday, after a several weeks' stay at Kansas City, Mo., where he has been employed.

Mrs. C. M. Barnett, Mrs. Jno. H. Wilson, Mr. John Allen Wilson and Master Levi Wilson were in Owensboro Wednesday.

Mr. and Mrs. Randal Watterson returned to their home at Ashley, Ill., after spending several days here the guests of relatives.

Mrs. Step Sosh and daughters, Lena Rae and Bonnie, have returned home after a short visit with friends and relatives at Drakesboro.

The Lady Maccabees of this place gave a kitchen shower last Thursday evening for their newly married Maccabee, Mrs. W. R. Wydick.

Mrs. Golda Haycock and Miss Ethel Monarch, of Owensboro, returned home yesterday, after a week's visit with Mr. and Mrs. John Riley.

Mr. and Mrs. W. O. Woodring are the proud possessors of an eight-pound boy. The little fellow arrived Sunday and has been christened William Omer Jr.

Mr. and Mrs. Rolfe Foreman of Narrows, attended the wedding of Mr. Foreman's sister, Miss Mary Jane Foreman, at this place last Thursday evening.

The automobile of Mr. Lon Owen of Adamsburg, was stolen Sunday night. It was located in Owensboro the following day, the thief having abandoned it after he reached that city.

See William Duncan Friday night June 17th at STAR THEATRE in "Fighting Fate." Thrilling climax reached in this episode. Also Ethel Clayton in "The City Sparrow."

Mr. and Mrs. Ollie Schrikel of Decatur, Ala., left Tuesday for Owensboro, where they will visit relatives the rest of the week. They will return to their home next Monday.

Mr. C. B. Howard, who has been employed for the past few months with the Bond Tie and Timber Company will arrive home today to spend several days with his family.

Mrs. O. T. Burns took her Sunday School Class to Fishner Friday on a picnic. Mrs. C. E. Smith and A. W. Bennett accompanied the party and assisted in the entertainment.

Ethel Clayton in "The City Sparrow" also William Duncan in "Fighting Fate" at the STAR THEATRE, Friday night June 17. Regular admission. Show starts at usual hour.

Why not make your kitchen cool and pleasant this summer by using a New Process oil stove, the kind that uses less oil.

WILLIAMS & TAYLOR, Agents.
Hartford, Ky.

Mr. and Mrs. O. C. Martin entertained a number of the friends of their daughter, Little Miss Gwendolyn, with a picnic near town last Friday evening. It was in honor of the little lady's ninth birthday.

Miss Mattie Duke arrived home Saturday, from Shelbyville, to spend the summer with her parents, Mr. and Mrs. J. D. Duke. Miss Duke has just completed her second successful year in the Shelbyville High School.

Mr. L. T. Riley is back home after an extended trip to Louisville and Dawson Springs. Mrs. Riley and daughter Lois Jones, are visiting her sister, Mrs. A. V. McFee at Johnson, Tennessee.

Misses Clifflie Felix and Elizabeth Moore were two from here, of a party of eight, who left Tuesday, returning yesterday from a motor trip to the Mammoth Cave. They report a very enjoyable trip.

Mr. E. P. Casebier went to Owensboro Wednesday, returning the same day bringing his wife, who has recently undergone a successful operation, back with him. She is reported as getting along fine.

If you enjoy a good laugh don't miss Larry Semon in "The Stage Hand," at the STAR THEATRE Saturday night June 18. William S. Hart's production, "The Cradle of Courage" is also on the bill. Two shows, first at 7:30 second at 9:00. Admission 25 cents.

Squire Ben Taylor of Pleasant Ridge, was in town Tuesday.

Mr. Barnett Shullenger has returned here after several months spent in Colorado.

Miss Della Glenn is spending the week end with Miss Anna Barnes at Beaver Dam.

Mrs. Ernest Morris and little daughter have been on the sick roll for the last few days.

Mrs. E. M. Woodward has returned to her home in Louisville after several days' visit with relatives here.

Capt. Cox celebrated his eighty-third birthday yesterday. A big birthday dinner was served at the home of his daughter, Mrs. E. E. Birkhead.

Mr. Clarence Fields, a former Hartford boy, but now of New Orleans, was in town Wednesday shaking hands with his old friends. Mr. Fields is returning south after a visit at Columbus, Ohio.

Miss Wilma Lowe, who has been under treatment at Owensboro for some time arrived home Friday to spend a few days with her parents, Mr. and Mrs. Frank Lowe. She was accompanied home by her cousin, Miss Virginia, who will be her guest.

Mr. and Mrs. L. E. Everly of Matanzas, left yesterday for Fort Worth Texas, on an extended visit with relatives. Mr. and Mrs. Everly will go from Fort Worth to Cedar Edge, Colo., where they will visit Mrs. Everly's sister, Mrs. W. C. Overhultz and Mr. Overhultz.

Mrs. James Lyons and daughter, Miss Dorcas, of Atlanta, arrived here Tuesday from Corbin, where they have been visiting Dr. and Mrs. Carson and Mrs. Lyon's son, Dr. Willis Lyons, for the past few weeks. Mrs. Lyons and Miss Dorcas will probably be here for the rest of the summer.

Mrs. Rowan Holbrook was the host of an informal tea given in honor of Mrs. F. L. Felix last Saturday afternoon. The ladies present were: Mesdames C. M. Barnett, A. W. Logan, J. S. Glenn, J. R. Pirtle, W. M. Fair, John B. Wilson, T. T. Frazier and Misses Lettie Marks and Mamie Bennett.

Mr. Leslie Hagerman, who has been on the Herald force for the past two years, has gone to Louisville to accept a position with the Masonic Home Journal. Mr. Hagerman will operate the linotype for the Journal and instruct the youngsters at the home in the art of running the machine.

Masters Joseph and Beverly Miller accompanied by their grandfather, Mr. C. B. Caldwell, of New Orleans, La., spent Thursday and Friday in Louisville. Mr. Caldwell, who has been visiting his daughter, Mrs. Joe T. Miller and Mr. Miller for the past few days, returned to his home Monday.

Word has been received here to the effect that Mr. Glenn Barnes who has been quite ill at Colorado Springs, Colo., is out of the hospital and is on the road to full health again. Miss Myrtle Lashbrook who has also been confined to the sick room for the past several months is able to resume her work again.

Master William Bennett, son of the late Captain Earl Bennett, arrived here Wednesday to spend several days the guest of his uncle, Mr. R. E. Duke, and Mrs. Duke. William came here from Welch, W. Va., where he has been attending school for the past year. He makes his home with his aunt, Mrs. J. W. Slack, of that city.

William S. Hart at the STAR THEATRE, Saturday night June 18, in one of his own productions, "The Cradle of Courage." This is one of the cleanest shows of the season. Everyone, everywhere has given it the highest praise. You'll regret it if you miss. Two shows, doors open at 7:00, first show 7:30, second show starts at 9:00. Admission 25 cents.

Miss Arlie Marion Thomas of Louisville, graduated from Holy Rosary Academy, in that city last week. She also won one of the two scholarships to the University of Louisville, annually given by the Academy as a reward of merit. She will enter the University in September. Miss Thomas is a daughter of Mr. and Mrs. John Henry Thomas, formerly of this county.

Miss Kathleen Tichenor of Centertown, spent Thursday and Friday the guest of Miss Ernestine Ralph. Miss Ralph accompanied Miss Tichenor home, returning Monday.

FARM DEPARTMENT.

Prices Of Farm Crops Below Pre-War Average.

The prices of six of the important crops on May 1 of this year were below the prewar average prices for that date, according to figures collected by the Bureau of Crop Estimates, United States Department of Agriculture. These crops are corn, oats, barley, flax, potatoes, and cotton. The report showed that the prices of the three grains—wheat, rye, and buckwheat—were above the prewar average prices. During April the average price of wheat declined from \$1.50 to \$1.23 per bushel. The report shows that in general the industrial crops, such as flax, cotton, and brom corn, are the most depressed in price, and that food crops such as wheat, rye, potatoes and apples, show relatively less decline.

The prices in various parts of the country vary, with South Dakota being the center of the low-price district, the May 1 report shows. The average price of wheat in that State was 90 cents per bushel, and in some counties it was as low as 70 cents. Corn was selling at an average price of 32 cents per bushel in South Dakota, while the average price for the United States was nearly 60 cents. The price of oats was 23 cents per bushel in South Dakota, the average for the United States being 36.8 cents. The report showed a big decline in the price of old potatoes, especially in Michigan, where the average was 29 cents a bushel, which was 20 cents below the average for the United States.

Clover Pests Cause Serious Loss

Decided increase in the destructive attacks by the lesser clover leaf weevil, a serious insect pest, in the States of Illinois, Indiana and Missouri is reported thru the country-wide insect pest survey conducted by the Bureau of Entomology, United States Department of Agriculture. This pest, it is said, in conjunction with the clover-leaf weevil and the clover-root curculio, sometimes accompanied by a fungous disease, is becoming so serious in parts of Ohio that alfalfa and sweet clover are being substituted by farmers for red clover, it being impossible to grow the latter crop successfully.

Hominy Grits Are Basis of Two Delicious Puddings.

Hominy grits are comparatively inexpensive, and are excellent as a cooked breakfast cereal or as a foundation for other dishes. Here are two recipes for using hominy grits, recommended by food specialists in the United States Department of Agriculture:

- 1 cup hominy grits.
 - 5 cups milk.
 - 1 teaspoon salt.
 - 1-4 cup of sugar.
 - 1 cup chopped seeded dates.
 - 1 teaspoon vanilla.
- Add the salt and hominy grits to the milk, and cook in a double boiler one hour. Add sweetening, dates, and vanilla and mix well. Partly cool before serving.
- (Fruit Scallops.)
- 1 1/2 cups cooked hominy grits.
 - 1 cup stewed and sweetened apricots.
 - 1/2 cup apricot juice.
 - 1/2 tablespoon butter.

Into a greased baking dish place, first, a layer of the hominy grits which have been mixed with the fruit juice, then a layer of the stewed fruit. Repeat until dish is nearly full. Dot over with the butter, and sprinkle with one tablespoon of sugar mixed with cinnamon. Bake until brown. Serve hot or cold with sauce or top milk.

Dried or canned fruit can be used.

Dependable Sires Pay Best.

Methods of raising good calves that will develop well and show no signs of runiness are given by a South Carolina live-stock owner in a statement to the United States Department of Agriculture. The farmer advises:

1. Use purebred sires which have behind them an established record—no guesswork.
2. Use purebred milk cows which are bred for production and which have proper points, such as deep udder, well-spaced teats, broad flanks, deep abdomen etc.
3. Feed only warm milk while calves are young. Gradually begin feeding proper grain after second month. Do not allow them too much grass. Give plenty of pure water, and never allow exposure to rain or extreme cold wind.

Hahto Soy Bean Prolific And Palatable Vegetable.

Attention of farmers in the Southern and Central States is being attracted to the Hahto variety of soy beans as a most palatable and nutritious green vegetable similar to lima and butter beans. A small packet of seed of this variety was obtained by a missionary at a county

agricultural exhibition in Japan about 5 years ago and sent to the Department. In the variety trials it appeared exceedingly promising for use as a green vegetable and was found very prolific. During the past two years it has been grown extensively by the boys' and girls' canning clubs of the north. As a green vegetable, the pods should be picked when the seed is about full grown. These beans may be canned like green peas and make an excellent green vegetable for the winter.

The Hahto is a bush variety, very prolific, and suitable for forage and pasture. It requires about 120 days to reach full maturity, but may be used as a green vegetable in about 115 days. In addition to its use as a green bean, the mature seeds make an excellent dried bean more easily canned and of a better flavor than the varieties of soy beans ordinarily obtained on the market.

Value of Milk In The Diet Shown With Rat Exhibit.

A striking exhibition of the value of milk in the diet has been prepared by the Dairy Division of the United States Department of Agriculture for use in educational milk campaigns. The exhibit consists of two stuffed and mounted rats, one a large-boned healthy specimen, the other an undersized weakling with skin clinging to its poorly developed bones.

The illustration compares an adequate diet containing all the food essentials with an inadequate, poorly chosen diet, lacking some of the food essentials. The large, well-developed healthy rat had its cereal diet supplemented with milk, and the advantage accruing is shown by the well-developed tissues, muscles, and bones, the smooth hair, the bright eyes, and the healthy color of the living rat. The protein of milk is capable of building muscular tissue. The mineral of the milk, especially lime, builds strong bones, and the food accessories (vitamins) of the milk insure growth and health.

The small rat was deprived of milk and other adequate sources of these necessary food constituents, hence the weak, gelatinous bones, thin muscles, lack of growth, and constant loss in weight and size. Both rats had wheat biscuits, but only one had milk with the biscuits.

These rats were chosen from two cages, each containing six rats. On March 21 each group weighed 485 grams. All rats were young and the same age. On May 4 both groups were again weighed. The six rats receiving milk had gained 542.5 grams. The others showed a loss of 17.1 grams each, or 102.7 grams for the lot of six.

This is not considered a scientific experiment, but a simple exhibit to show the effects of an inadequate diet, as proved by experimental research.

Bulletin Gives Control Methods For Flag Smut.

Methods for controlling flag smut, a destructive disease of wheat, are given in Farmers' Bulletin 1213, Flag Smut of Wheat and Its Control, issued for free distribution by the United States Department of Agriculture. The disease was discovered in 1919 near Granite City, Madison County, Ill., and in 1920 was found in 111 fields confined to 47 square miles.

Black stripes running lengthwise in the leaves and leaf sheaths are typical of flag smut. Diseased plants are stunted and rarely head. The disease is spread by spores carried on the seed, and by spores left in the field on infected plant material or on the ground, where they may be scattered in various ways, and infect wheat seedlings in the fall.

Treat with formaldehyde the infested grain as it comes from the thrasher. Burn infested straw. Sow disease-free seed on noninfested land. Treat with copper sulphate and lime the seed wheat to be sown in the infested area.

The bulletin may be had upon application to the Division of Publications, United States Department of Agriculture.

Give the Dairy Cow Salt.

Salt is required by all animals. The dairy cow requires an ounce or more a day, say specialists of the United States Department of Agriculture, and while she should be given all she needs, she should not be forced to take more than she wants. It is best, therefore, to give only a small quantity on the feed, and to place rock salt in boxes in the yard where she can lick it at will.

Standardized Products Bring Better Prices.

Without uniform standards for farm produce there is no recognized basis for the business of buying and selling, says the Bureau of Markets, United States Department of Agriculture. Standardization of products gives seller and purchaser a common

language and a set quality upon which prices may be compared and fixed. Experience has shown that the products which are sold by grade find a better market, bring better prices, and can be handled at less expense than those sold without reference to standards. Standards have already been fixed for many farm commodities, such as American Upland cotton, shelled corn, wheat, oats, and for small fruit containers. These Federal standards apply only when the product is intended for interstate or foreign commerce. It is highly important to secure State cooperation so that the provisions that apply to a few products will apply to all that are offered for sale.

Open Range Coming Back.

The range stock business in Arizona is looked upon as an industry entirely separate from farming, and farming with stock raising. Reports received by the United States Department of Agriculture show that the old type of range is not continuing as profitably as it was a decade ago. The old-time antagonism between stockman and farmer is being overcome gradually. There is now a reaction from the practice of home-steaders of breaking up the pastures by setting on land where they could not make a living and in some instances miles of fences are being removed and the ranges established where dry farming has been found to be unprofitable.

Appearance Counts In Marketing.

The selling value of fresh fruit and vegetable shipments is judged largely on appearance when received, say specialists of the Bureau of Markets, United States Department of Agriculture. Fruit should be well graded or assorted, packed in the most approved manner, and shipped when weather and market conditions seem most favorable.

Grading is one of the most important factors in preparation for the market. It is being studied by specialists of the bureau from every angle. Grades, which are optional, have been suggested for a number of commodities, and this work is being continued.

The marketing of the apple crop suggests the value of grading. If apples were not graded, the entire crop would have to be disposed of within four months. It is estimated that proper handling has extended the marketing period to seven or eight months. Investigation and experience have both shown that it only pays to ship the best produce. Stock which is not suitable for storage and shipment may be disposed of in the vicinity where grown, and the lowest quality should be diverted to by-product factories.

Tobacco Blue Mold Checked.

The blue-mold disease which developed in the tobacco seed beds in the Florida-Georgia district in March and which later spread to the fields, has been arrested by the dry weather of the latter part of April and the first week of May. The heavy rains in the middle of May did not bring further development of mold on the newly developing leaves. The crop is growing well and the United States Department of Agriculture believes it probable that there will be no material further development of the disease.

For Infants and Children

In Use For Over 30 Years

Always bears the Signature of *Dr. J. C. Ayer*

STRIKE AFFECTS COUNTRY

A general strike has been called throughout Norway and the government has called in troops to protect Christiania and other cities. The sailors went out first on proposed wage reduction of 33 per cent, and soon many of the municipal plants were also closed down by the strike. When the railroad men quit work the army and navy were mobilized, the government declaring the strike organized by the bolsheviks for revolutionary purposes. Many clashes occurred between the strikers and the police. All newspapers have suspended publication except the socialist organs, which continue to report the situation as highly pleasing. Strikes, violence, sabotage and bloodshed always please the professional revolutionists.

TEACH GERMAN LANGUAGE

Resumption of the teaching of German has been authorized in the schools of the District of Columbia after having been eliminated from the curriculum since 1917. The discontinuance was occasioned by action of congress which expressly stipulated that none of the money appropriated at that time for the school should be used in teaching German. The language will be made an elective subject.

U. S. LABOR DEFEATS "ONE BIG UNION" IDEA

Denver, June 10—Delegates to the convention of the Metal Trades Department of the American Federation of Labor this afternoon by an overwhelming vote defeated a proposal designed to bring about the organization of one big metal trades union in the United States.

Representatives of the International Association of Machinists, who introduced the resolution, were vigorously scored as advocating, and attempting to revive the "one big union" idea in this country.

The debate was long and bitter, representatives of the Pattern Makers' League of North America, the International Brotherhood of Boiler Makers and the International Brotherhood of Electrical Workers, vigorously opposing the proposal.

A rollcall showed that the resolution was defeated by a vote of 3,210 to 171. The International Association of Machinists was the only union to vote solidly for the resolution. The Metal Polishers' Association Union delegation was split, while the Metal Trades Council of Chicago voted in the affirmative.

PREHISTORIC LIFE IS TRACED TO N. J. JERSEY

What is believed by the finder to be the oldest remains of prehistoric life on earth have been uncovered in the marl pits at Marlton, N. J. Prof. J. H. Buckman, federal geologist, has found shells which he declares to be 15 million years old. Traces of giant lizards and huge animals long extinct are among other specimens which have been brought to light in that tranquil and seldom-heard-of Jersey town.

The discoveries, according to the authority, give Marlton the greatest range of such specimens in the world, extending from the period when shellfish represented the only animate life. The find of the shells is said to upset all calculations as to the age of the marl deposits in that part of the country.

POTASH FROM SAND

A plant is being constructed to extract potash from a peculiar kind of green sand found in considerable quantities in New Jersey. The sand is said to contain seven or eight per cent of this chemical which is indispensable as a fertilizer and in numerous industrial processes. Lime and brick are to be turned out as by-products of the plant. It is announced.

WOULD BUY JAMESTOWN

Washington, June 13—Recommendation to buy historic Jamestown Island, the site of the settlement made famous by Captain John Smith, has been made to Congress by Representative Ransom Simpson, the sole Republican member of the House from Virginia.

It is stated in his resolution that: "Whereas, the first permanent English settlement in the Western Hemisphere was made at Jamestown Island, Va., on the 14th day of May, 1607, and Anglo-Saxon institutions there obtained their permanent hold in the New World, and

"Whereas, this historic spot not only possesses a unique interest in the sacred traditions of the nation, endeared alike to the people of all sections, but also recalls in a singular manner the common ties of blood and language which unite us with the mother country, and which have been reunited and strengthened by more than a century of unbroken peace and by our common participation in the World War, and

"Whereas, through the generosity

It won't be long before Liv-Ver-Lax will completely displace calomel in every home. Children can take it freely and with perfect safety. Every bottle guaranteed. 50c and \$1 in bottles. None genuine without the likeness and signature of L. K. Grigsby. For sale by
J. M. WILLIAMS, - Hartford, Md.

THIS MAN DREADED TO SEE NIGHT COME

Was So Restless He Could
Not Sleep And Daylight
Was Always Welcome.

"With the exception of a little milk toast, which comprised my diet for more than eight weeks, I could not eat anything," said Capt. Geo. W. Womble, residing at 195 Jennings St., Knoxville, Tenn., a highly respected citizen of that city.

"I am now able," continued Captain Womble, "after taking two bottles of Tanlac, to eat practically anything. I had a bad form of stomach and intestinal trouble for a long time and for months my condition had been such that I suffered agony. I got so I could not eat the simplest food. I tried doctor after doctor and all kinds of medicine but nothing that was prescribed for me seemed to do me any good. I had a terrible pain in my breast just over my heart and for weeks and weeks I got no relief.

"I finally got so nervous that I actually dreamed to see night come as I could not sleep and was always so restless that I would rejoice to see daylight come. I was also constipated all of the time. In fact, life seemed a burden and I was so miserable that I was almost on the verge of despair. Several of my neighbors told me about Tanlac and advised me to try it."

"I am personally acquainted with Mr. Dan M. Chambliss, of the firm of Kuhlman & Chambliss, and when I told him of my condition and how I suffered he advised me to begin taking Tanlac without delay and that it had relieved hundreds of the best people in Knoxville. I have now taken two bottles of Tanlac and am giving you this testimonial in the hope that it may induce others to take it. Since taking this medicine I actually feel like I had been made all over again with the youth, energy and ambition of a sixteen year old boy."

"What do you understand by suffering for righteousness' sake?" asked the Sunday-school teacher of little Marie.

"Please, miss," was the reply, "it means having to come to Sunday-school."—London Answers.

SEN TO FORECAST WEATHER.

Pointing out that weather conditions on the earth depend largely on the sun, a Canadian astronomer suggests that general weather conditions may be accurately predicted six months or a year in advance by carefully observing the orb. He says that it may be necessary to study the sun and keep records for 50 or 100 years more before it will be possible to foretell the amount of precipitation, temperature etc., months in advance but he is confident that this ability will be attained eventually.

QUALITIES OF PAINT TESTED

In order to determine the wearing qualities of various paints and varnishes and consequently their efficiency as preservative coatings to wood, metal, etc., the U. S. bureau of standards brushes samples onto panels of wood and metal which are then exposed on special racks placed on the roof of a building. Here sun, rain, heat and cold act on them under the most severe conditions so that the relative value of each coating is plainly indicated. Samples submitted by manufacturers are tested in this way. Laboratory tests are also made with a view to determining purity of ingredients used by manufacturers as well as to working out improvements in formulas.

FORMER KAISER STIRS ANGER

Wilhelm, who used to be emperor of Germany, decided to go into the real estate business at Doorn to the extent of selling a strip of wooded land of his estate, outside his fences for building lots. He quickly "got in Dutch" with the idea. The government on learning of it prohibited the felling of the trees, and the town decided to buy the tract and preserve it for a park. The people of Doorn resented the attempt, for a tree is venerated in most of Europe, and they look askance at their troublesome neighbor.

ONLY WHITE RATTLES ON RECORD IS CAPTURED

Pittsfield, Mass., June 10.—R. M. Smith and his son, Robert, today caught alive, with a forked stick, a white rattlesnake at Black Rock, Mount Washington.

The reptile is two feet long with two rattlers and a button. It was shipped tonight to Raymond Ditmars, curator of the Bronx Zoo, New York. The snake has pink eyes and

its white skin is dotted with pink spots.

Ditmars saw the freak last year when snake hunting on the mountains but it eluded him. It is said to be the only white rattlesnake on record.

DO I. W. W. WILL BE RELEASED FROM JAIL

Kansas City, Mo., June 10.—Nineteen Industrial Workers of the World convicted in the Federal Court in Kansas City, Kan., in December 1919, of activities designed to hinder the successful prosecution of the war, will be released, Fred Robertson, U. S. District Attorney in Kansas City, Kansas, announced today. Mr. Robertson said the Government would not appeal from the ruling of the United States Circuit Court of Appeals at St. Paul, Minn., which declared the first count of the indictment against the men invalid.

MEMORIAL TREE PLANTED

As part of the commencement day exercises of the N. Y. Institute of Applied Agriculture, a white oak tree was planted in soil collected from every state in the Union and from every country associated with the United States in the World war. More than a year was taken to collect the soil from the various countries.

GENS TO HIT TARGETS THIRTY MILES DISTANT

Speaking at a meeting of the American Society of Mechanical Engineers Dr. E. A. Eckhardt declared that it may soon be possible to make perfect hits with cannon at ranges of from 25 to 30 miles. Necessary precision in sighting will be obtained, he said, with the aid of a galvanometer which is capable of measuring velocities down to 1.1500 second.

FRANKFORT MEETING BACKS SAPIRO PLAN

Frankfort, Ky., June 10.—Bankers, business men and growers of Frankfort and Franklin County tonight voiced unanimous approval of the proposed Hurley Co-operative Marketing Association.

The endorsement of the Sapiro plan was made at a meeting which was addressed by Judge Robert Bligham, Louisville; Williams Sims, Woodford County; J. C. Stone, Lexington and Joseph Passonneau, organizer.

Hedford Macklin was named chairman to appoint a committee for launching the "sign-up" campaign in the county.

Robert Noel, who attended the original Sapiro meeting in Louisville declared he was confident that the plan would not fail.

"So you consider Jack misleading and disappointing. Why, dear?"

"Well, he had me on the tenterhooks last night in expectation that he was going to ask me to go to the theater."

"No, he only ask me to marry him."

"Is Mr. Hansen courting you, Alice?" her chum Doris asked her one day.

"Not exactly—yet," admitted Alice.

"But he is approaching step by step."

"What do you mean?"

"Well, when he first called he sat all the evening with a post-card album in his lap."

"Yes."

"Next time he sat with my poodle in his lap."

"Well?"

"Last night he took my little brother on his knee. So you see, I hope it will soon be my turn."—Boston Globe.

BUILD SHIP FOR JAPAN.

The Japanese naval commission has awarded a contract for the construction of a 20,000-ton fuel supply ship for the Japanese navy to the New York Shipbuilding Co. Captain Yokura, chairman of the commission, said this contract was proof that Japan desired only friendly relations with this country. This is her first order in this country for many years, England generally being entrusted with all such work that is not done at home.

HAWAIIAN LABOR SHORTAGE

A commission of citizens of Hawaii which was sent to this country by the Hawaiian general assembly to lay before President Harding the labor conditions in the islands declare that the labor problem there is serious, owing to a shortage of farm help. They appeal to the United States for relief. The Japanese question is not critical in Hawaii, though 43 per cent of the laborers are Japanese, against only two per cent on the Pacific coast. The president has a first-hand knowledge of conditions in Hawaii, having made a trip to the island soon after he was elected to the senate.

DECKER DRAWING LIFE TERM, CALM

Warsaw, Ind., June 10.—Virgil Decker, 19-year-old farmer boy, was found guilty of the murder in the first degree in connection with the death of Leroy Lovett his associate, by a jury in the Circuit Court here tonight. He was sentenced to life imprisonment. The jury was out less than three hours.

Young Decker showed no emotion when the verdict was read or when sentence was passed. He seemed in excellent spirits when he was taken back to his cell.

The case of Decker, who was accused of murdering Lovett, said to have been his "double," as the outcome of an alleged conspiracy between members of the Decker family to kill Lovett, claim his body as that of Decker and collect \$24,000 in life insurance, was given to the jury at 3:30 o'clock this afternoon.

The instructions of the court included a possible finding that the defendant may have been of unsound mind.

The Decker case is one of the strangest ever to come to the attention of local authorities. Saturday night, March 12, a young man was found in a dying condition on a railroad crossing near Bourbon, Ind. The body was identified as that of Virgil Decker by members of the Decker family.

On the following Monday the body was identified by Samuel Lovett, Elkhart, Ind., as that of his son, Leroy, and Virgil Decker was arrested at Marion, Ind.

His two brothers, Calvin and Fred Decker, and his mother, Mrs. Lydia Decker, are in jail here awaiting trial.

During the trial several alleged confessions of Virgil were introduced.

Children Cry FOR FLETCHER'S CASTORIA

A guest who was doing full justice to the excellent dinner provided by his host was being watched with great interest by the little daughter of the house. At length she said, "Oh, I do wish you were here to dinner every day."

The guest beamed with satisfaction. "Do you, my dear? Why? he inquired.

"Because there won't be anything cold to eat tomorrow."

"Maud is sorry now that she took Jack's ring back to the store to be valued."

"The jeweler kept it. He said that Jack hadn't been in to settle for it, according to his promise."—Boston Transcript.

"Addie sore because I kissed her last night."

"Why don't you tell her you're sorry then?"

"I should say not! If I told her that she's never speak to me again."—Legion Weekly.

Nellie—Do you love me, Charlie Charlie—Sure.

Nellie—Then why don't your chest go up and down like the hero in the movies?—Tar Baby.

LIMIT LAWYERS TO \$3000?

If a bill which has been introduced in the Florida legislature becomes law, lawyers in that state will not be allowed to earn an income over \$3000 a year. All money in excess of that amount would be turned over to the state for apportionment among the counties for advertising and charitable purposes. If there are any lawyers in the legislature it is not hard to guess how they will vote. Most legislative bodies are made up of four-fifths lawyers and two or three-fifths attorneys.

"What is a widow?" asked the teacher of a Sunday-school class, the subject of the day's lesson being the widow of Ham. There was silence until she nodded to a little boy on her left, and said: "You know what a widow is, don't you?" for she knew that the boy's mother was one.

"Yes'm," he answered, "it's a lady what takes in washing!"

\$150,000 STOLEN; FAIL TO FIND LOOT

Sacramento, Cal., June 10.—Whereabouts of a mail bag said to contain between \$150,000 and \$180,000 worth of bonds stolen from a Southern Pacific mail car here May 19 remained a mystery today, following failure of Roy Gardener, mail bandit, sentenced to 25 years' imprisonment, to find the pouch when taken by federal officers to the place he said it was hidden.

Gardner was taken from the train here yesterday while en route from San Francisco to McNeil's Island prison.

Barney McShane, a special agent, said Gardener told federal officers in San Francisco he hid the sack con-

CORD TIRES

Now Selling at the Lowest Price Level in Tire History

30x3½	- -	\$24.50
32x4	- -	46.30
34x4½	- -	54.90

(And Other Sizes in Proportion)

Tire repair men, who judge values best, class these tires as having the sturdiest carcass made. Forty-seven high-grade car manufacturers use them as standard equipment. They are the quality choice of cord users.

\$13.95 for 30x3½ Regular Non-Skid Fabric

This new low price is made possible by strictest economies and specialized production.

Plant No. 2 was erected for the sole purpose of making 30x3½-inch Non-Skid fabric tires. With a daily capacity of 16,000 tires and 20,000 tubes, this plant permits refined production on a quantity basis.

All materials used are the best obtainable. The quality is uniform. It is the best fabric tire ever offered to the car owner at any price.

HARTFORD MOTOR COMPANY, Hartford, Ky.

taining the bonds under a tree near this city the night before the robbery of another train. Search under the tree indicated by Gardner, however, failed to reveal the bonds. The bandit told the officers that he had been "doubled-crossed" and that someone else had taken the sack.

No information concerning the ownership of the bonds was made public here.

WINGS OF BUTTERFLIES AND MOTHS

As most people doubtless have ob-

served, the wings of butterflies and moths are not only beautiful but extraordinarily delicate. They are covered with a fine dust or powder which is easily brushed off if we touch them. When these creature are caught in a storm this powder may all be blown or washed off, leaving only the delicate veins and a thin transparent membrane.

Viewed under the microscope, Science and invention tells us, this dust is found to consist of numerous plates which overlap each other like the shingles of a roof. On more minute examination each of the plates or

scales is discovered to be made up of a blade or scale proper and a base or plate of attachment, the entire scale resembling a leaf.

The scale consists of numerous fine tissues running from the base to the lobed tip. In reality these lines are tiny tubes, designed probably for conducting air. When light strikes the tubes it is refracted and broken up into its component colors the same as when it falls on a prism. To this is due the bright color of the wings, the multiplicity of color being caused by the arrangement of the tubes on the scales.
